Aspiring to contribute collaboratively and enthusiastically to the Technology team. Eager to expand my knowledge and embark on a challenging career that leverages my skills in full-stack development, problem-solving, and teamwork. Committed to making a meaningful impact on the organization's objectives and goals

WORK EXPERIENCE

PickMe (Digital Mobility Solutions Ltd.)

Feb 2023 - Sep 2023

QA (Automation) Engineer Intern

Used technologies: Java . Selenium . Appium . TestNG . JUnit . Jenkins

· Jira . Node.js . REST Assured . API Testing . REST APIs

TECHNICAL SKILLS

- **PROGRAMMING LANGUAGE** JAVA . Python . JS . Kotlin . Dart . SQL
- **FRONT-END** HTML . CSS . JS . Bootstrap . React JS . Flutter . jQuery . Ajax . Sass . Tailwind CSS
- **BACK-END** Spring . Java Servlet . Node JS . express JS . Django . Flask . JDBC API . REST API
Restful Web Services
- **DATABASE** MySQL . Mongo DB . ORDB . PL/SQL . SQLite
- **AUTOMATION** Selenium . Appium . Cypress . JUnit . TestNG . JMeter . Postman . Rest-Assured
API Testing . Jenkins . Anisble
- **VIRTUALIZATION** Docker . VMware fusion . Oracle Virtual box
- **CLOUD PLATFORM** AWS . Microsoft Azure . GCP
- **VERSION CONTROL** Git . GitHub . GitLab
- **PROJECT MANAGEMENT** Agile . Scrum . Kanban . Azure Boards . Trello . Jira
- **OPERATING SYSTEMS** Windows . macOS . Ubuntu . Fedora . CentOS . UNIX (server OS)

KEY SKILLS

- Language – English Tamil & Sinhala.
- Good Communication – Written and Oral
- Strong Leadership and teamwork skills
- developed in a variety of deadline-oriented situations
- Effective interpersonal skills
- Good organizational and time management skills

EDUCATION

BSc (Hons) in Information Technology (Specializing in Information Technology)

2020 - Present

SLIIT

Final-year undergraduate

G.C.E Advanced Level - Engineering Technology

2019

BT/ Hindu College

ICT - C . E-tech - C . SFT- S

CERTIFICATIONS

Introduction to Automation Testing | 2023

Great Learning Certification

Python Automation Project | 2023

Great Learning Certification

PROJECTS

VEHICLE PASS SYSTEM (Web Application)

<https://github.com/Bihash07/Vehicle-registration.git>

MERN Stack (Mongo DB . Express JS . React JS . Node JS)

I have developed an individual project for a Sri Lankan customer vehicle registration application, using the MERN Stack. I have built both the front and backend, employing MongoDB, React JS, Express JS, and Node JS to manage CRUD operations. Additionally, I am utilizing REST API for this project.

ELECTROGRID SYSTEM (RESTful Webservice Rich Web Application) <https://github.com/Bihash07/Vehicle-registration.git>

JAVA . JERSEY-RX . MAVEN . HTML . CSS . BOOTSTRAP . MySQL . JQUERY . AJAX

ElectroGrid (EG) is the company that maintains the power grid of the country. This system monitors the power consumption of users, generates monthly bills, automatically sends them to users, and accepts online payments. Our task was to develop a highly scalable online platform for EG to cater to all users.

VEHICLE BOOKING SYSTEM (Mobile Application)

https://github.com/Bihash07/AppMonster_MAD_MiniProject

JAVA . SQLite . Firebase . Android Studio

The main functions of this app include viewing booking reports, taking feedback, and managing employees by the admin. Users can make inquiries via email, register, and manage their bookings. Admins also handle vehicle and package management, as well as login management. Additionally, there is a Contact Us system.

NEW VEENA PRINTERS Management System (Web Application)

Java servlet . MySQL . HTML . CSS . JS . Bootstrap . JDBS . MySQL

Developed a Java servlet web application to manage all the functions of the monitor the printing order details of the users.

EXTRA-CURRICULAR ACTIVITIES

- **Project Member | 2021 - 2022**
Leo Club of SLIIT

- **Member | 2022 - 2023**
AIESEC of SLIIT

- **Member of Toastmaster | 2023**
Toastmaster of PickMe
